

## **The Villagers Commitment Continues During COVID-19**

These are most certainly challenging times. Our first and foremost concern is the safety of our families, friends, Villagers' members and supporters. Not far behind is our concern for the continued protection of historic sites in Miami-Dade County.

As someone who has supported The Villagers' events and programs in the past, we want to share with you that behind the scenes The Villagers have been hard at work. We have taken this gift of time to enhance our strategic planning and back-office systems, as well as an update and refresh of our website.

Our members have been brainstorming creative fundraising ideas to carry us through what is expected to be a very different fall and new year. We have decided to cancel this year's House Tour, usually scheduled for the first weekend in December. At this time, our Garden Tour is still in the planning stages for next spring (fingers crossed). In the fall, our monthly meetings will be held virtually, and we will continue to feature interesting guest speakers. For the latest information, visit our website at <https://thevillagersinc.org/>.

Rest assured we are working together to keep The Villagers strong and our mission of preserving historic places intact.

Wishing you and your family safe and healthy months to come,

Marie Vacca  
President, The Villagers
